

3 May 2024

Dear Parents and Carers,

The following information is from our careers team.

Post 16

We're delighted that so many of our Year 11 have already received an offer for September. The Careers Team are continuing to work with those that have yet to make a decision.

It's important to remember that students can make multiple applications and accept multiple offers with no obligation of taking them up if they change their mind once they get their results.

We would encourage all students who have yet to make an application to do one as soon as possible, and that they can seek support from any of the Careers Team – we're always happy to help.

Careers Office, C043 Careers@northleamington.co.uk

Careers Opportunities

Year 11 Post 16 Apprenticeship

We have received a fantastic opportunity to apply for a motor vehicle apprenticeship with one of a number of our local garages. This is open to all our Year 11 students.

Please encourage your child to access the link to find out more details if this is of interest to them.

RAF

The RAF is holding its next Virtual World event on the 8 May 2024. The theme is Engineering, and students aged 16+ are invited to join online to find out more about the RAF, their mission, the people, and the roles offered. There is no cost to attending and parents are encouraged to join also.

The link for the event is here: [RAF World: Engineer Your Career Tickets, Wed 8 May 2024 at 19:30 | Eventbrite](#).

Have a nice bank holiday weekend.

Many thanks

The Careers Team
