

## Year 9 Curriculum Overview

English in Year 9 continues to build on the variety of experiences, texts and written skills developed in Years 7 and 8, while continuing to anticipate the progression to KS4 and beyond. The study of literature continues to be vital and, as well as encountering ambitious and intriguing texts including: both fiction and non-fiction extracts; modern and Shakespearean plays; and novels, students will explore material generated by the increasingly complex world they experience in media. Students will be exposed to a range of challenging vocabulary and literary techniques, supporting and developing their cultural capital. The texts studied in this year cover a wide range of diverse themes, including those of responsibility, gender, class, love, hate, fate, conflict, morality, duality, the gothic and inequality.

Additional to this, the curriculum also provides opportunities for the students to become skilled writers and competent in writing argumentative and creative pieces. They will be guided in finding their own voice when writing and speaking for different audiences and purposes.
